

# The Most Powerful Diagnostic Tool for Oncology, Neurology, and Cardiology

## PET/CT IMAGING

- EARLY DIAGNOSIS
- ACCURATE STAGING
- PRECISE TREATMENT & MONITORING

### SERVICES OFFERED:

- Open MRI
- 3D Mammography
- Low Dose 128 Slice CT
- Virtual Colonoscopy  
*(No anesthesia required)*
- Bone Densitometry
- PET/CT
- Nuclear Medicine
- Ultrasound
- Digital X-Ray

**Patient  
Empowerment.**

*We will help you make  
informed decisions.*

The combination of PET/CT provides remarkable accuracy.  
PET/CT is a powerful diagnostic tool that is having a significant  
impact on the diagnosis and treatment of many prevalent diseases.  
*Do it for yourself, do it for your family...*

# 3T High-Field Open-Bore Skyra MRI

Patient comfort combined  
with High Quality Imaging

*Cyrus Diagnostic Imaging* has installed the only top-of-the-line Skyra 3T MRI system Lake Mary. With the new MRI system, we are able to offer state-of-the-art MR technology to enhance our patient care through better diagnostic imaging & patient comfort.

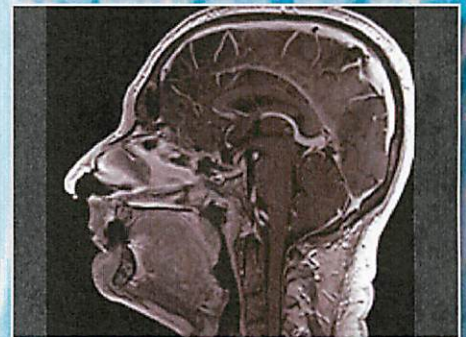

The new 70 cm wide bore MAGNETOM Skyra 3T MRI at Cyrus Diagnostic Imaging provides:

*We also offer the following diagnostic imaging services at our facility:*

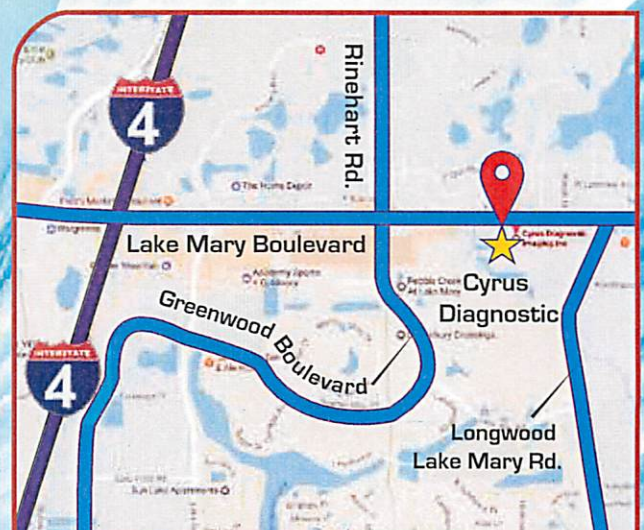

- CT Angiography (128 Slice CT scanner)
- Virtual Colonoscopy (128 Slice CT Scanner)
- PET/CT Imaging
- 3D Mammography (Hologic 3D technology)
- Nuclear Medicine (HIDA, Bone Scans, Myocardial Stress)
- Advanced Body Composition (Hologic DEXA scanner)
- Breast MRI (18 channel)
- Prostate Imaging

Please call our office for more information on our state-of-the-art equipment and services

# 128 Slice Low Dose CT

## Advanced Imaging with Reduced Radiation Dose

Cyrus Diagnostic Imaging is proud to offer state-of-the-art equipment, including the Siemens SOMATOM Perspective 128 Slice CT scanner. This machine allows for remarkably detailed images at reduced radiation dosage.

- Highly detailed vascular and cardiac imaging enables visualization of even the smallest diagnostic detail.
- Innovative technology automates dose according to patient size, weight, and anatomy, providing high-quality images at minimally required dose.
- Advanced studies such as CT Angiography, Heart Score Calcification, and Virtual Colonoscopy.

## Our Scanner Offers:

### Intricate Diagnostic Details

- Highly detailed vascular imaging enables visualization of even the smallest diagnostic detail.
- Fast scanning speed helps reduce need for breath hold, especially critical for imaging trauma, elderly, and pediatric patients.

### Advanced Dose Reduction Features

- Innovative technology automates dose according to patient size, weight, and anatomy, providing high-quality images at minimally required dose.
- State-of-the-art SAFIRE\* image reconstruction software allows for up to 60% dose reduction across a wide portfolio of clinical applications.

### Patient-Friendly Design

- Automated technology helps allow the technologist to spend less time at the machine and more time with the patient.
- Patient-friendly design allows for excellent access and patient positioning.
- Consistent, high-quality images reduce the need for re-scans.
