

### IP Network Website

The IP Network Website has recently been updated. Please take a moment to check out the improvements by clicking the button below.

Visit our website-[IPNetworkFlorida.com](http://IPNetworkFlorida.com)

The February 2019 updated IP Network Member Roster is available on the website, under the Membership Tab. This listing is in an Excel format for your easy ability to download and sort it to your preference. Please review your physician(s)/practice information to assure that it is correct. Please contact Kaitlyn Carrick, Physician Liaison at [admin@ipnetworkflorida.net](mailto:admin@ipnetworkflorida.net), with any corrections/additions/deletions.

We also encourage you to email Kaitlyn with current credentialing information, to include CAQH, DOB, NPI, and Medicare ID. Physician credentials are only stored internally with IP Network's management team, to assist communication with all new and current payer relationships.

There are new pages under the IAHN tab, highlighting our contracted ancillary providers and information about their organization and their representatives contact details.

**It is important that our IP Network members utilize the IAHN preferred providers as these ancillaries have committed to supporting IP Network and our ideology of keeping our patients in an independent healthcare delivery system, away from facility fees, to ensure lower out of pocket costs for your patients and improving IP Network's valued-based approach.**

If you work with a specific ancillary group you feel would be a good fit for our organization, please drop April Peterson, Director of Network Development, a note at [apeterson@hpofflorida.com](mailto:apeterson@hpofflorida.com) so she can reach out to them.

Please visit the Practice Resource tab as well. The resources available can assist your practice on the business administration side. They are able to help with office education, practice certifications, EMR training, revenue cycle management, MRA coding, etc.

We are currently moving forward to provide our members with access to a patient-oriented health and wellness online platform that provides only the most current, vetted, medical condition information through the IP Network website. When complete, you will be able to peruse and print any information found here.

To take this resource one step further, The Shetland Group, for The Circle of Health, will be happy to provide this interactive tool to your practice at no-cost, giving your patients another incentive to go to your website. More information will be coming soon on this.

You have probably been receiving phone calls and emails about the new Payer plans now offered to our Network. We are firming up primary care and specialist participation for these payers.

If you would like to participate in any of the Network insurance contracts below, please contact April Peterson, Director of Network Development via [apeterson@hpofflorida.com](mailto:apeterson@hpofflorida.com), or Kaitlyn Carrick at [admin@ipnetworkflorida.com](mailto:admin@ipnetworkflorida.com). They will be happy to explain the plan requirements and needs, territory coverage, reimbursement rates and will provide you with the proper contracting documents.
